Kagawa Locally Produced and Consumed Partner Store

Sanuki Food Providers GUIDE BOOK

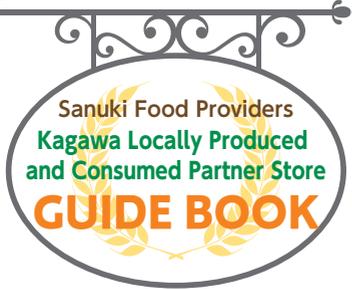

We have listed restaurants where you can enjoy **Sanuki cuisine**!

Kagawa Locally Produced and Consumed Campaign Image Character "Santa-kun"

What is Kagawa Locally Produced and Consumed Partner Store (Sanuki Food Providers)?

To enable consumers to learn about, purchase, and eat agricultural, forestry, and fishery products from Kagawa Prefecture, we are recruiting stores that are actively working to promote locally produced and consumed products. These stores are registered as "Kagawa

Locally Produced and Consumed Store", divided into the categories of "Sanuki Food Retailers" and "Sanuki Food Providers". We have registered the halls travel agencies, that actively use ingredients from the prefecture as "Sanuki Food Providers".

How to read store information

Kagawa's recommended agricultural, livestock and fishery products

Kagawa Prefecture is blessed with favorable natural conditions, and a wide variety of agricultural, livestock, and fishery products with excellent quality and flavor are produced throughout a year.

To help you learn more about and enjoy Kagawa's unique products, which thrive in the warm climate of the Seto Inland Sea, we introduce some of our main items. One of which is the olive, the prefectural tree and flower that boasts the highest production in the country.

Kosui

Sanuki Kiwikko®

Sanuki Angel Sweet

Kosui

Sanuki Emerald

Sanuki Gold

Kiwifruit

A large number of original varieties are cultivated, differing in color, size, and taste.

Availability: October to March

Obarabeniwase (Satsuma mandarin)

This Satsuma mandarin is characterized by its vibrant red skin and rich sweetness.

Availability: July to August, November to February

Sanukihime

This fruit is large, with glossy flesh that is soft and juicy, and is characterized by its rich aroma and elegant sweetness.

Availability: November to June

Natsutayori

High-quality loquats are produced through careful bagging and Kagawa Prefecture's unique quality evaluation technology.

Availability: April to June

Grape [Pione, Shine Muscat]

The two main varieties cultivated here are "Pione", which has large berries with a good balance of sweet and sour flavors, and "Shine Muscat", which has little acidity, is extremely sweet, and can be eaten with the skin.

Availability: June to September

Peach [Hakuho varieties, Hakuto varieties]

This is a representative summer fruit of Kagawa that has been cultivated for about 150 years. It is harvested when fully ripe, so you can enjoy its mellow fragrance and melt-in-your-mouth flesh.

Availability: June to August

Pear [Kosui, Hosui, Akizuki]

Cultivated for about 100 years, Honan pears are sweet and crunchy, and are harvested fully ripe, giving them a rich flavor.

Availability: August to September

Shiranuhi (Citrus fruits)

It is a very popular fruit because it has a strong sweetness, a moderate acidity, and can be eaten whole like a Satsuma mandarin.

Availability: January to February, May to July

Lemon

The prefecture's lemons, which are carefully grown by producers in a mild climate and rich natural environment with a focus on quality, are recommended as "Sanuki San Lemons".

Availability: November to July

[Setomidori]

[Olbina]

Olive

Olives were introduced to Shodoshima over 110 years ago and are now cultivated throughout the prefecture. They are carefully harvested and selected, and high-quality olive oil is produced based on the prefecture's unique quality labeling system.

Availability: all year round (oil), October to December (newly pickled)

Oidemai

This rice has a beautiful color and luster, uniform grains, a good texture and a delicate sweetness, and is delicious even when cold.

Sanuki no Yume

When made into udon noodles, it has a subtle wheat aroma, a chewy texture, and a smooth texture that goes down smoothly.

Agricultural Administration Division,
Agricultural Administration and Fisheries Department, Kagawa Prefectural Government
4-1-10, Bancho, Takamatsu, Kagawa 760-8570 Japan
TEL:087-832-3396 FAX:087-806-0202

Created in February 2026

The information presented in this guidebook is current as of February 2026. For the latest information, including opening hours, please contact each establishment directly.

Sanuki no Mezame

Asparagus with firm tips, soft roots, and a subtle sweetness "Sanuki no Mezame Violetta" is characterized by its vibrant purple color.

Availability: January to November

Tabetena

It is a cross between komatsuna and sanukina, and its name comes from the hope to have everyone eat it. It is characterized by its crunchy texture and less bitterness than komatsuna.

Availability: February to May

Green onion

"Sanuki green onions" are an essential ingredient on the dining table, used as a condiment for Sanuki udon noodles. Harvested early in the morning to maintain freshness, they are juicy and fragrant.

Availability: All year round

Garlic

The garlic grown in the prefecture is painstakingly grown and is packed with flesh, with a rich aroma that fills your mouth.

Availability: April to August

Lettuce

Grown throughout the prefecture, it has a crunchy texture, sweetness, and beautiful color. It is sold nationwide under the brand name "Rarirure Lettuce".

Availability: November to May

Broccoli

Boasting the highest production volumes in the country, they are harvested before sunrise and immediately packed in ice for shipping, ensuring exceptional freshness. They are also rich in nutrients such as vitamin C, beta-carotene, and iron.

Availability: October to June

Kansyo

With a gentle sweetness and fine flesh, it is shipped as an "early harvested sweet potato" from early July.

Availability: July to December

Kintoki carrot

A local vegetable that is essential in Kagawa in winter, it is sweeter and softer than Western carrots and has a vibrant red color.

Availability: November to March

Parsley

It is primarily cultivated in the former Ouchi town of Higashikagawa city, a representative production area in western Japan. It enjoys high acclaim under the brand name "Ouchi Parsley".

Availability: October to June

Manba

It is a type of leaf mustard, and is called "manba" in the eastern part of Kagawa Prefecture and "hyakka" in the western part. "Manba no Kenchan", which is boiled with aburaage or tofu, is a local dish of Kagawa Prefecture.

Availability: October to April

Kagawa Hontaka

Cultivation of this pepper began during the Azuchi-Momoyama period, and was discontinued in the 1970s, but thanks to collaboration between relevant organizations and Kagawa Prefecture, cultivation was revived in 2006. It is larger than regular chili peppers and has a deep red color.

Availability: August to October (fresh), all year round (dried)

Mitoyo eggplant

It is a traditional vegetable in Kagawa Prefecture. It is about three times the size of a regular eggplant, has a soft skin, and is juicy.

Availability: July to October

Olive Beef

This is Sanuki beef raised on feed made from olive after oil extraction, a local specialty of Kagawa Prefecture. Olive Beef is characterized by its "light fat", "flavorful lean meat", and "good balance of lean meat and fat".

Olive Jidori Chicken

This brand of local chicken is made from two local breeds of chicken in the prefecture, "Sanuki Cochín" and "Seto Akadori", and is fed with olive-feed for at least two weeks before shipping. In addition to the chewy texture typical of local chicken, it also includes rich "glycine" and "succinic acid".

Olive Dream Pork/Olive Pork

Olive Dream Pork is a brand of pig that is carefully raised by olive-feed from Sanuki Yumebuta, which was developed based on the British Berkshire breed, and Olive Pork is a brand of pig that is carefully raised by olive-feed from pigs produced in Kagawa Prefecture. Feeding olive-feed increases the sweet component fructose, allowing you to enjoy the rich flavor of the lean meat and the refreshing sweetness of the fat.

What are Olive Livestock Products?

The Japanese beef cattle, pigs and local chickens that are carefully raised on farms in Kagawa Prefecture are fed a fixed amount of "olive-feed" made from dried olives after the oil has been extracted from olives grown in Kagawa Prefecture for a fixed period of time. These are called "Olive Beef", "Olive Dream Pork · Olive Pork" and "Olive Jidori Chicken", and are collectively called "Olive Livestock Products".

Sanuki Three Livestock Brand Promotion Council Website (Meat Museum)

Sanuki Three Livestock

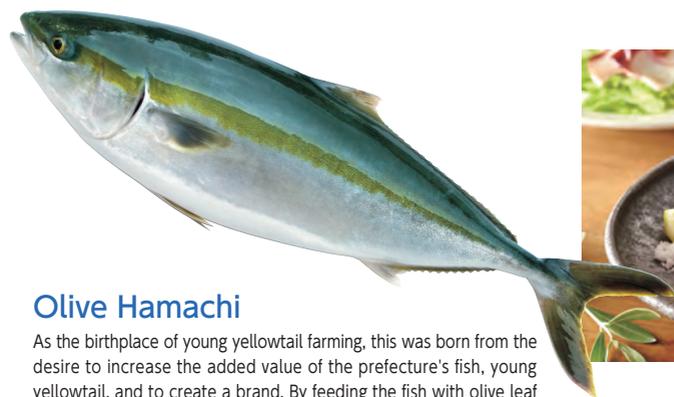

<https://www.sanchiku.gr.jp/>

Egg

Kagawa Prefecture, where egg farming is thriving, is the top producer of eggs per area in Japan. Fresh eggs are produced every day. You can also enjoy the unique flavors of raw eggs, such as eggs on rice and kamatama udon noodles.

Olive Hamachi

As the birthplace of young yellowtail farming, this was born from the desire to increase the added value of the prefecture's fish, young yellowtail, and to create a brand. By feeding the fish with olive leaf powder, the fish have a light fat content and a mild aftertaste.

Availability: October to January

Olive Madai

By feeding the fish with olive leaf powder, the collagen content increases by 1.4 times compared to regular red sea bream, making the meat crisp and maintaining its crispness even after storage.

Availability: October to November

Olive Salmon

By feeding the fish with olive leaf powder, it is expected that the meat will have a moderate amount of fat, a clean taste, and a crisp texture. The meat is characterized by its bright orange color, chewy texture, and less of the fishy odor.

Availability: April to May (fresh), all year round (frozen)

Madako (Sanuki octopus)

It is a bounty of the sea deeply rooted in local culture, including traditional dishes such as "imotako" and the custom of eating octopus on Hangeshi. Both its catch and consumption are ranked among the highest in Japan.

Iriko

Kagawa is a producer of high-quality Iriko, including the brand "Ibuki Iriko". These shiny silver Iriko have an outstanding aroma and flavor, and are also used in the broth for Sanuki udon noodles.

Nori

Kagawa is one of the top producers of nori in Japan. "First Harvest Nori produced Kagawa" made from the first sprouts harvested in the season, is soft, fragrant, and deliciously flavorful.

Japanese oyster

They are known for their soft, nutritious, and richly flavored flesh. They are also known as "milk of the sea". "Kakiyaki", which grilled with their shells on a hot plate, is a specialty winter dish that represents Kagawa Prefecture.

Sanuki Food Retailers
Kagawa Locally Produced
and Consumed Partner Store
GUIDE BOOK

What is Kagawa Locally Produced and Consumed Partner Store (Sanuki Food Retailers)?

To enable consumers to learn about, purchase, and eat agricultural, forestry, and fishery products from Kagawa Prefecture, we are recruiting stores that are actively working to promote locally produced and consumed products. These stores are registered as "Kagawa

Locally Produced and Consumed Store", divided into the categories of "Sanuki Food Retailers" and "Sanuki Food Providers". We have registered farmer's market and mass retailers that actively sell ingredients from the prefecture as "Sanuki Food Retailers".

How to read store information

002 Kagawakenchoshohi seikatsukyodokumiai Super Mall 

Every Tuesday is Agricultural College Day, and fresh seasonal vegetables and fruits are available. 

 **Sanuki food retailers:** farmer's market, mass retailers, retail shop etc.
